Ebay 2020 Nick Vulich 2014-12-25 Selling on eBay isn't a game. You need to have a plan. eBay 2020 walks you through what it takes to sell on eBay. It answers all of your questions, and gives you ideas about how to get started and grow your eBay business. Do you ever wonder how some sellers can grow a strong thriving business, while others barely scrape by? Many times, I've watched two sellers as they are first starting out on eBay. Both sellers offer the exact same products and prices, yet one business skyrockets to the top of the charts selling thousands of items per month. The other business struggles to sell ten or fifteen items per month. They might even have the same basic look to their listings. On the face of it, it doesn't make sense. Why does one eBay seller prosper, while another falls behind? Is it a matter of luck? Does one eBay seller catch all of the breaks, while another is stuck holding doo doo? Believe it or not, many struggling sellers believe this. They think it's all a matter of luck. But, you and I know better. Don't we? Sellers who succeed on eBay play by different rules. They don't leave anything to chance. They know that success requires a plan. You don't just move from Point A to Point B. You need to make it happen. And, that's what this book is all about. It gives you a strategy for selling on eBay. You will learn How to write titles that draw buyers into your listings and help them find what you are selling. How to take picture that show buyers what they need to know to say "This is the item I'm looking for!" The anatomy of a great listing. What you should say. How you should say it. What not to say. Why you need to stop guessing at prices for your items, and how to determine realistic prices that customers are willing to pay. The smart way to ship your items so you can get your packages to your customers safely and on time. How to rock customer service, and motivate your customers to leave five star feed-back every time. How to deal with eBay's constant string of updates and changes. Still not convinced? Consider this.

There are over 149 million active buyers on eBay. Last year they spent over \$83 billion dollars on everything from paperclips to new cars and custom helicopters. Hundreds of thousands of small sellers are making \$500, a \$1000, even \$2500 every month working part time from their kitchen table or garage. How about you? Are you making your fair share? If not, this book will help you understand - selling on eBay isn't a game. You need to have a plan. Get serious about your eBay selling Order this book - TODAY! Sell It Online Nicholas L. Vulich 2013-04-19 eBay, Amazon, Etsy, & Fiverr So many choices How do you decide? Which site is right for your online business? Many books promise to share the secrets to getting wealthy selling online. They tell you to sell this or that product, or to try this top secret listing method, or to sign up for this course. But, that's all they are - promises. Sell It Online is different. It's written by a real eBay Power Seller and Top Rated Seller. One who's been selling on eBay and Amazon for over fifteen years. Most importantly, Sell It Online doesn't make any crazy promises that you'll make a million dollars overnight selling on any of these

sites. It's not going to happen. It also doesn't tell you that you can make three thousand dollars a month following my method, because those kinds of promises don't make sense. Anyone can make money selling online. But, you aren't going to make a fortune following someone else's plan. If you want to make money selling online, you need to understand . The ecommerce sites that are out there so you can choose the one that's best suited for the products you sell. . You need to sell products that people actually want to buy. . eBay Business 2 Pack Nick Vulich Too many sellers rush into eBay without a plan. They jump in and start selling before they understand what the market is all about. Other newbies are sloppy, and post poorly lit pictures, or write vague descriptions that don't really tell buyers anything about what they're selling. Too often, sellers overprice, or underprice items in their haste to get their listings posted. If they overprice their item it doesn't sell, and they decide eBay doesn't work. It's just another scam that stole their money. If they underprice their item, and it sells, they complain because they can't make any money. Selling on eBay is part art and part science. I can teach you the science or the mechanics of selling on eBay, but to be really successful you need to understand the art of selling on eBay, or what I call gut instincts. When you're scouting inventory you've got to be able to walk through a room and instantly zero in on the money items. I sell books, magazines, and paper memorabilia. When I hit an estate sale, on my first round through the house that's all I'm looking for. The first thing I look for is vintage magazines. I've got a mental list of about twenty-five titles I always buy, but what really excites me is when I come across something new; something I've never seen before; the more pictures they have in them, the more I want them. I'm also scanning the room for items I don't normally sell, but things I think would complement my product line. Here's the way I look at it. If you see something totally new and unique that appeals to you, it's going to have that same effect on buyers in your niche. I think Mike on American Picker's put it best, "In my business if you come across something you've never seen before the best time to buy it is now." If you don't have that gut instinct to recognize something good—it's going to be harder to be successful on eBay. Here's why? If you don't have that gut instinct to recognize what's good and what's not, it's going to be like walking into a room with blinders on. There may be fifty items that will allow you to double or triple your money, but you're likely to miss every single one of them, because you are laser focused on just a few items you're comfortable selling. That's good for the guy behind you. He's going to grab everything you walked by, and he's going to be able to pay his bills this week. But it sucks for you. You're going to be right back to thinking eBay is a scam, and there's no way anyone's making any money on the site. It happens every day. Don't believe me? Just hop on any eBay forum and get a whiff all of the bitching and whining. Need a little more convincing? Stop by the Ecommerce-Bytes Blog and check out some of the comments for any of their eBay related articles. It's the same people—constantly whining about how horrible and mean eBay is, and how they can't make a dime anymore because of that old Scrooge—Mr. Donahue. Guess what? It's not eBay. It's you. It's your attitude. The sooner you understand whether you make or lose money on eBay is all about you and how you approach selling, the sooner you'll find the success you're looking for.

Ebay 2014 Nick Vulich 2013-11-27 Selling on eBay isn't a game. You need to have a plan. eBay 2014 walks you through what it takes to sell on eBay. It answers all of your questions, and gives you ideas about how to get started and grow your eBay business. Do you ever wonder how some sellers can grow a strong thriving business,

while others barely scrape by? Many times, I've watched two sellers as they are first starting out on eBay. Both sellers offer the exact same products and prices, yet one business skyrockets to the top of the charts selling thousands of items per month. The other business struggles to sell ten or fifteen items per month. They might even have the same basic look to their listings. On the face of it, it doesn't make sense. Why does one eBay seller prosper, while another falls behind? Is it a matter of luck? Does one eBay seller catch all of the breaks, while another is stuck holding doo doo? Believe it or not, many struggling sellers believe this. They think it's all a matter of luck. But, you and I know better. Don't we? Sellers who succeed on eBay play by different rules. They don't leave anything to chance. They know that success requires a plan. You don't just move from Point A to Point B. You need to make it happen. And, that's what this book is all about. It gives you a strategy for selling on eBay. You will learn how to write titles that draw buyers into your listings and help them find what you are selling. How to take pictures that show buyers what they need to know to say "This is the item I'm looking for!" The anatomy of a great listing. What you should say. How you should say it. What not to say. Why you need to stop guessing at prices for your items, and how to determine realistic prices that customers are willing to pay. The smart way to ship your items so you can get your packages to your customers safely and on time. How to rock customer service, and motivate your customers to leave five star feedback every time. How to deal with eBay's constant string of updates and changes. Still not convinced? Consider this. There are over 128 million active buyers on eBay. Last year they spent over \$83 billion dollars on everything from paperclips to new cars and custom helicopters. Hundreds of thousands of small sellers are making \$500, a \$1000, even \$2500 every month working part time from their kitchen table or garage. How about you? Are you making your fair share? If not, this book will help you understand - selling on eBay isn't a game. You need to have a plan. Get serious about your eBay selling. Order this book - TODAY! Make more sales tomorrow - and everyday
